17. Secretary/Cupboard \$ Explanation Below

Value is difficult to determine with the condition it is in at the present time. With work it has the possibility to be a very nice piece with the correct woodworker. It could be a married piece (two pieces not originally together), original glass pulls, walnut, carved fish on 2 doors, 2 drawers, 3 shelves, glass original to top piece (see waviness), 1800s, 89" high, 52" x 37", 48" wide

At the present time, in the condition it is in now, the value would be approximately \$200.00 - \$250.00. If it was repaired, refinished (although old it needs repair), top and bottom assembled to be together, the piece could be approximately \$1500.00 - \$1800.00.
